CAREER OBJECTIVE

Motivated Junior MERN Stack Developer passionate about building scalable full-stack web applications that solve real-world problems. Seeking to leverage expertise in React, Node.js, and MongoDB to contribute to innovative software solutions while continuously growing as a professional developer.

SKILLS

- **Technical Skills:** Next.js, React.js, JavaScript (ES6+), Express.js, Node.js, MongoDB, Better-Auth, JWT, REST APIs, Stripe, Tailwind CSS, HTML5
- **Dev Tools:** Git, GitHub, VS Code, Figma, Vite, npm, Prettier, DaisyUI, Vercel, Netlify
- **Soft Skills:** Problem-Solving, Team Collaboration, Time Management, Adaptability, Critical Thinking

PROJECTS

AdoptNest - A Full Stack Pet Adoption Platform

AdoptNest is a full-stack pet adoption platform where users can browse pets, submit adoption requests, and manage pet listings through a secure dashboard. Built with the MERN stack, the platform includes authentication, search & filtering, responsive UI, and RESTful API integration for a smooth user experience.

Live Link : [AdoptNest Live](#)

GitHub : [Server Repo](#) | [Client Repo](#)

Features :

- Implemented secure user authentication and authorization
- Developed features to add, update, and manage pet listings.
- Built an efficient adoption request and approval system.
- Integrated REST API with MongoDB database for smooth data flow.

SunCart - Modern Online Shopping Platform

SunCart is a modern e-commerce web application where users can browse products, manage carts, and experience a smooth shopping interface with secure authentication using Better Auth. The project also implements middleware and proxy-based client-side route protection to enhance security and user experience.

Live Link : [SunCart Live](#)

GitHub : [SunCart Client Repo](#)

Features :

- Implemented Secure authentication using Better Auth
- Configured Protected routes with middleware and proxy handling
- Developed Product browsing and shopping cart functionality
- Designed Responsive and user-friendly UI design
